SUSTAINABILITY CHALLENGES

THE IMPACT OF CLIMATE CHANGE ON AGRICULTURE AND DEVELOPMENT IN AFRICA

MONDAY 28TH NOVEMBER, 12.30-14.00
INTERNATIONAL TRADE CENTRE, 54-56 RUE DE MONTBRILLANT, GENEVA

Event programme:

12.30- 13.00: Light lunch and networking

13.00- 14.00: Lecture and Q&A

Speaker: Salvatore Di Falco, Professor in Environmental Economics, University of Geneva

Professor Di Falco's research focuses on the intersection between environmental and development economics. He has analyzed the contribution of natural resources such as biodiversity on agricultural productivity, food security, and weather risk in arid environments. His work also focuses on the role of institutional structures (common property forests) on natural resource conservation, rural development and poverty reduction.

Professor De Falco will speak for 30 minutes about his recent research on the climate challenges facing farmers on the African continent and the drivers for how they adapt. A 30 minute Q & A discussion will follow.

Opening remarks: Anders Aeroe, Director, Division of Enterprises and Institutions, International Trade Centre (ITC)

Moderator Q & A: Alexander Kasterine, Senior Technical Adviser, International Trade Centre
