WORLD ENVIRONMENT DAY | 05 JUNE
Green Economy: Does it include you?

Environmental Perspectives in Setting Global Sustainable Development Goals

To be effective, environmental governance requires more than smoothly running institutions with adequate authority - clearly defined goals are equally indispensable. At the 2006 Global Ministerial Environment Forum in Dubai, the Swiss President and Environment Minister Moritz Leuenberger suggested that global environmental goals should be established, with the Millennium Development Goals (MDGs) serving as a model.

To celebrate World Environment Day, you are cordially invited to attend this special roundtable, which will be followed by a reception offered by the Swiss government and the local authorities. (For more information on other World Environment Day events in Geneva, visit www.jme-ge.ch).

Agenda
