Eye on Earth Alliance

Eye on Earth Alliance Vision

Build and mobilize institutional support to advance the overall Eye on Earth mission statement:

To facilitate the sharing of and application of environmental, societal and economic data and information, provided by the diversity of knowledge communities, to support sustainable development.

Members' Contribution

- Knowledge community
- Technology support and capacity building
- Enlarging the existing network
- Partnership building and networking
- Mobilize funding and other relevant resources

What are the benefits of being a member of the Alliance

- Be part of a global effort to enhance access to data and information across the three pillars of sustainability as articulated in the *Future We Want* document.
- Support policy and decision-making for the public good
- Enhance the achievements of organization objectives
- Collaboration with other Alliance members and potential collaboration with other stakeholders within the Eye on Earth Community
- Increase visibility in addressing data issues under the SDGs
- Access to engage with stakeholders, initiatives and projects that one may not have had visibility or access to previously
- Minimization of duplication and fragmentation by sharing information
- Have access to funding mechanisms that enables the Alliance to demonstrate transformative change
- Contribute to future agenda setting inline with the EoE mission statement

Alliance Governance

- Governance through the Alliance Secretariat
- Alliance Governance Charter to be created
