

Presentation

IPCC WGII & III Contributions to the Fifth Assessment Report

Thursday, 19 June 2014, 10:15-12:00

International Environment House 2

7-9 ch. de Balexert

The IPCC Fifth Assessment Report (AR5) provides a clear and up to date view of the current state of scientific knowledge relevant to climate change. It comprises three Working Group (WG) reports and a Synthesis Report (SYR).

The Working Group II & III (WGII & WG III) contributions to the AR5 - **Climate Change 2014: Impacts, Adaptation, and Vulnerability** and **Climate Change 2014: Mitigation of Climate Change** were launched in March and April 2014. The WG II contribution assesses risks and opportunities for societies, economies, and ecosystems around the world. The WG III contribution assesses the options for mitigating climate change and their underlying technological, economic and institutional requirements.

You are cordially invited to attend an event providing an overview of the WGII & III contributions to the AR5 report, taking place at the International Environment House, with

Introduction and Overview of Progress and Timeline for AR5

Renate CHRIST, Secretary, IPCC

Key messages and issues arising from the WG II Report

Chris FIELD, Co-Chair, IPCC Working Group II

Key messages and issues arising from the WG III Report

Elmar KRIEGLER, Lead Author, IPCC Working Group III

A Country perspective

José ROMERO, Swiss Federal Office for Environment

Question & answer session moderated by Renate CHRIST
