

REPORT LAUNCH

Thursday 26 February, 11.00-12.30

International Environment House II (7-9 ch. de Balexert)

You are cordially invited to attend the launch of a report prepared within the Regional Coordination Mechanism for Europe and Central Asia and the United Nations Development Group for Europe and Central Asia, as part of their ongoing work on the Millennium Development Goals (MDGs) and the post-2015 development agenda. This event is hosted by the Geneva Environment Network.

“Lessons on Monitoring and Implementation of the MDGs for the Post-2015 Development Agenda” is a United Nations report focusing on the transition from the MDGs to the future Sustainable Development Goals (SDGs). It provides a brief overview of lessons that have been learned from implementing and monitoring progress towards achieving the MDGs in the developing and transition economies of Europe and Central Asia. These lessons are relevant to the design of a post-2015 development framework. The themes highlighted in the report are supported by the conclusions from five case studies of national progress in MDG achievement from economies in this region.
