

LAUNCH OF UNEP EMISSIONS GAP REPORT EXECUTIVE SUMMARY

 **Friday 6 November 2015**

 **11:00-12:30**

 **International Environment House II (7-9 ch. de Balexert)**

You are cordially invited to attend the launch of the United Nations Environment Programme (UNEP) Emissions Gap Report Executive Summary, which presents the world's progress on reducing greenhouse gas emissions, taking place at the International Environment House, on 6 November 2015.

This sixth UNEP Emissions Gap Report provides a scientific assessment of the mitigation contributions from the submitted Intended Nationally Determined Contributions (INDCs). As in the previous reports, it then compares the resulting emission levels in 2030 with what science tells us is required to be on track towards the agreed target of a global average temperature increase below 2 °C by 2100. In addition, the Report presents selected areas where enhanced action can be taken, accelerated and scaled up to close the emissions gap.

PROVISIONAL AGENDA

11:00 - Coffee & Tea

11:15 - Welcome

Jan DUSIK, UNEP Regional Director and Representative

11:20 - Presentation of Emissions Gap Report Executive Summary

Jacqueline McGLADE, UNEP Chief Scientist

H.E. Hakima EL HAITE, Morocco Minister of Environment

12:00 - Question & Answer Session

12:30 - End

Registration: gen.secretary@unep.org
