UNEA: TOWARDS A POLLUTION-FREE PLANET

TRANSFORMATIVE ACTIONS TO SHIFT THE ECONOMY

Building circularity and resource efficiency into production processes, supply chains and key economic sectors.

- Innovation for new business models, cleaner products & services.
- Responsible consumption.
- Decoupling of economic growth from natural resource consumption and environmental impacts.

Incentivizing and redirecting finance and investments to less-polluting economic activities

- Internalizing the costs of pollution in financial decisions.
- Requiring the disclosure of costs and risks of pollution.
- Incentives to shift finance away from companies and activities that pollute and towards greener technologies.
- Rewarding risk-reduction strategies.

CASE STUDIES: INSURANCE

Insurance pricing can reward risk reduction

Innovation for new business models, cleaner products & services.

- As risk managers, insurers also help communities understand, prevent and reduce risk through risk research and analytics, catastrophe risk models, and loss prevention measures

Incentivizing and redirecting finance and investments to less-polluting economic activities

- **Allianz** – insurance for renewable energy, green buildings, resource-efficient refurbishments, discounts on car insurance for fuel-efficient vehicles.
- **AXA** – divesting companies in coal and no longer underwriting, tripling green investments to more than €3 billion by 2020 – clean technology, green infrastructure, green bonds.
- **Munich Re** – Green Tech Solutions Corporate Insurance Partner, Impact Hub Munich for solutions.
