Confédération suisse
Confederazione Svizzera
Confederaziun svizra

ABOUT THIS SESSION

Geneva is a global hub for international environmental governance where numerous intergovernmental organizations, permanent governmental missions, NGOs, platforms, academic institutions and other stakeholders contributing to the global environmental agenda are based. Geneva is, therefore, an ideal location to reinforce and develop synergies among these actors. This session, convened by the Geneva Environment Network, aims to introduce new stakeholders to international Geneva, its environmental community, major events and negotiations taking place in the region.

SPEAKERS
