## ABOUT THIS SESSION

You are cordially invited to attend the launch of a new report "Greening the China–Mongolia–Russia economic corridor - A virtual synthesis", organized within the framework of the Geneva Environment Network. This report, illustrating the Belt and Road developments in Mongolia, was prepared by Zoï Environment Network, with the support of the Swiss Federal Office for the Environment and the Permanent Mission of Mongolia to the United Nations in Geneva.

Strategically located between Russia and China, Mongolia is ready to seize an exceptional development opportunity by signing on to a trilateral economic corridor project proposed under the Belt and Road Initiative. As a part of multi-billion dollar infrastructure investments in railways, roads, energy supply and mines, the China-Mongolia-Russia corridor aims to improve transportation among the three countries and further expand trade networks across Eurasia.

The report offers an analysis of the key development projects, environmental pressure points and approaches to mitigation. Greening the China–Mongolia–Russia economic corridor will take rigorous infrastructure planning, the implementation of strong sustainability criteria and safeguards and active cooperation among country stakeholders.

## SPEAKERS

- H.E. Amb. Purevsuren LUNDEG, Permanent Representative of Mongolia to the United Nations Office and other international organizations in Geneva
- Martine ROHN, Deputy Head, International Affairs Division, Federal Office for the Environment, Switzerland
- Otto SIMONETT, Director, Zoï Environment Network
- Rowan PALMER, Programme Specialist, Sustainable Infrastructure Partnership

## REGISTRATION

A maximum of 20 participants can be accommodated at the International Environment House with prior registration. This event will also be broadcasted live.
