ABOUT THIS SESSION

You are cordially invited to the Plastics and Waste Session of the Geneva Beat Plastic Pollution Dialogues organized by the Geneva Environment Network in partnership with the Basel, Rotterdam and Stockholm Conventions (BRS), the Center for International Environmental Law (CIEL), the Global Governance Centre at the Graduate Institute, Norway, and Switzerland.

The Geneva Beat Plastic Pollution Dialogues aim to facilitate further engagement and discussion among the stakeholders in International Geneva and beyond. They also intend to address the plastic crisis and support coordinated approaches that can lead to more efficient decision making. The Plastics and Waste Session is the first dialogue to be organized leading to and making recommendations towards the High-Level Plastic Governance Dialogue in February 2021.

Leading experts at this session will look at plastic waste figures, the achievement of different stakeholders at all levels, and governance options being proposed to reduce or eliminate plastic waste.

Further details are available at <http://tiny.cc/GEN26Nov>
