## ABOUT THIS SESSION

You are cordially invited to the Plastics and Trade session of the Geneva Beat Plastic Pollution Dialogues, organized by the Geneva Environment Network in partnership with the Basel, Rotterdam and Stockholm Conventions, the Center for International Environmental Law, the Global Governance Centre at the Graduate Institute, Norway, and Switzerland.

The Geneva Beat Plastic Pollution Dialogues aim to facilitate further engagement and discussion among the stakeholders in International Geneva and beyond. They also intend to address the plastic crisis and support coordinated approaches that can lead to more efficient decision making. This session is the sixth dialogue to be organized leading to and making recommendations towards the High-Level Plastic Governance Dialogue in 2021.

Leading experts invited to speak at this session will look at the potential contributions of trade policy to international cooperation on reducing plastic pollution.
