Briefing on Plastic Pollution INC-1

Wednesday 2 November

Jyoti Mathur-Filipp, Executive Secretary
UNEP-Intergovernmental Negotiating Committee Secretariat on Plastics
End Plastic Pollution Resolution in a nutshell

- Develop an international legally binding instrument on **plastic pollution** addressing the **full life cycle of plastic**
- UNEP to convene an **ad hoc open-ended working group (OEWG)** in first half of 2022 to prepare for the work of the INC
- Convene an **intergovernmental negotiating committee (INC)**:
  - Starting: second half of 2022, Completing: end of 2024
  - Convene a multi-stakeholder forum at INC-1 to exchange information
- Convene a **diplomatic conference of plenipotentiaries** upon completion of negotiations to adopt the instrument and open it for signature
WHAT will the instrument consider? (para. 3 of UNEA resolution 5/14)

• Promote sustainable production and consumption of plastics, including:
  • product design, and environmentally sound waste management
  • through resource efficiency and circular economy approaches.

• Capacity building, technologies, technical & financial assistance.

• Data, monitoring, reporting, means of assessing implementation & effectiveness.

• Address Compliance.

• Promote National Action Plans.

• Research & innovation; scientific and socio-economic info. and assessment.

• Multi-stakeholder engagement, cooperation, coordination, action at all levels.
HOW will the instrument deliver? (para. 4 of UNEA resolution 5/14)

- Consider obligations, measures, and voluntary approaches in supporting the achievements of the instrument's objectives.
- Finance mechanism to support the implementation, and consideration of a dedicated multilateral fund.
- National circumstances.
- Mechanism for policy-relevant scientific and socio-economic information and assessment.
- Lessons learned and best practices.
Ad hoc open-ended working group meeting

• 30 May to 1 June in Dakar, Senegal
• Key outcomes:
  • Indicative date (week of 28 November 2022) and host (Uruguay) for INC1
  • Guidance to the secretariat in the preparation of documents for INC1
  • Recommendations to the INC:
    o five sessions of INC to be organized
    o nominal timetable for sessions
    o Rules of Procedure forwarded to INC-1 for consideration and adoption
  • Series of multi-stakeholder dialogues convened stakeholders on key topics

• For more information, refer to https://www.unep.org/events/unep-event/Intergovernmental-Negotiating-Committee-end-plastic-pollution
Timeline for the INC process (tbc by the INC)

- INC 1: 28 Nov – 2 December 2022, Punta del Este Convention and Exhibition Centre, Uruguay

Major groups and stakeholders: 971
Logistical information

• INC-1 logistics note (updated regularly by secretariat):
  https://www.unep.org/events/conference/inter-governmental-negotiating-committee-meeting-inc-1

• Plastic-free meeting. Delegates are suggested to bring their own water bottles to the meeting. Water dispensers for refilling will be provided.

• Registration will open
  i. 25 November, 9 a.m. - 6 p.m.;
  ii. 26 November - 1 December, 8 a.m. - 5 p.m.

• Transfer services will be available between:
  i. The capital Montevideo and Punta del Este for flight arrivals and departures
  ii. Punta del Este city centre and the venue every day.

• Visa letters: The Government of Uruguay will issue special individual letters to participants authorizing entry into the country without a visa. Please note that only participants that require a visa will be issued the letter.

• Accommodation list is available on-line: Due to peak season in Uruguay, participants are encouraged to book hotels as early as possible.
Participation in the meeting

• Hybrid meeting

• Draft rules of procedure for the work of the INC set out in document UNEP/PP/INC.1/3, as agreed by the OEWG. Member States should be prepared to finalize and adopt the rules of procedure under item 3 (a)

• The time limits for statements:
  • 5 minutes for each statement made on behalf of a group of States
  • 3 minutes for statements by representatives of individual delegations
  • 3 minutes for statements from the nine UNEP major groups and stakeholders
  • 3 minutes for statements by observers, time permitting

• Preliminary schedule to guide participants through the planning for the session is set out in Annex II of the Scenario Note
All 10 documents requested at the OEWG are available online in English, language versions will follow shortly.

Structuring the discussions / Agenda item 4

Discussions will cover two different but related considerations:

1) What should be included in the legally binding instrument?

2) How could the process be structured in order to reach agreement by the end of 2024?

A set of related questions are outlined in the scenario note (paras 26 & 27)
Possible outcomes of INC-1 (identified in the Scenario Note):

a. Preliminary discussion on possible options for scope, objectives & structure;
b. Explored issues in paragraphs 3 and 4 of UNEA resolution 5/14;
c. Identified provisions requiring significant further consideration & where agreement may be reached more readily;
d. Discussed standard articles on final provisions, and agree in principle or agree on need for further discussion;
e. Agreed to a timetable for further discussion of provisions, with conclusion of negotiations by 2024;
f. Discussed sequencing and clustering of the committee’s work;
g. Requested any additional information or analysis required for the INC, including a possible mandate to prepare a zero-draft text of the instrument for consideration at INC-2;
h. Agreed on dates, venue and provisional agenda of INC-2;
i. Agreed on intersessional work to be carried out in 2023;
j. Discussed possibility of convening future multi-stakeholder forums.
Thank you

High-level presence

Luis Lacalle Pou  Adrián Peña  Francisco Bustillo
President of Uruguay  Minister of Environment  Minister of Foreign Affairs
The first session of the INC to develop an international legally binding instrument on plastic pollution, including in the marine environment, will take place in the Punta del Este Convention and Exhibition Centre from 28 November to 2 December.

Regional consultations will take place on 27 November.
In March 2022, the United Nations Environment Assembly (UNEA-5.2) unanimously endorsed in Nairobi a historic resolution to End Plastic Pollution (resolution 5/14), which gives the mandate to
Briefing on the Plastic Pollution INC-1

Miguel LUÍS

PLASTIC POLLUTION AND OUR OCEANS

Portugal's work and expectations on the Plastic's Agreement process
INITIATIVES

- Co-Chaired by Portugal and Chile
- Created with the aim to support ambitious action at UNEA-5 against marine litter and plastic pollution.

- Co-Chaired by Rwanda and Norway
- Portugal is a member since the launch
NAIROBI GROUP OF FRIENDS

OBJECTIVES

- Advocating for coordinated solutions that address the problem holistically, through a life-cycle approach.
- To promote knowledge sharing and to provide discussions to enhance the understanding of the sources, pathways and impacts of marine litter and plastic pollution.
- To promote, as appropriate, joint action or partnerships to engage with the private sector, civil society and academia.

Geneva Beat Plastic Pollution Dialogues
November 2nd 2022
Plastics are complex chemical mixtures.

> 10,000 substances used in plastics
registered in known inventories

>2,400 substances of concern

Pollution
Concentrations
Regulatory & research gaps
Chemical Simplification

- “the number of chemicals used in many products, in particular in consumer products, needs to be reduced.”

- “Grouping approaches should become an integral part of chemical assessment.”
Definitions are important, but…

“What's in a name? That which we call a rose By any other name would smell as sweet.”

William Shakespeare

Definitions

- Negotiations
- Not always the same
- Global Plastics Treaty
### Plastics

- There are 3 legally binding Definitions of Plastics:
  1. Harmonized System Convention
  2. MARPOL
  3. Mediterranean RAP

- Need to differentiate “plastics products” and “plastics materials”

### Plastic Pollution

- The definition (if any) should be given in the context of the full lifecycle

### Full lifecycle

- The lifecycle of a material is not necessarily the same as the lifecycle of a product.

- Recognition of the different stages does not mean that all of the stages will be addressed with the same priority

---

**OECD**: Broadly, all emissions and risks resulting from plastics during its production, use, waste management and leakage.
