

Save the Children, in partnership with the Global Climate and Health Alliance and World Vision, invites you to:

“Health in the climate crisis: from global policy to integrated action”

A side event on the margins of the 77th World Health Assembly

 29 May 2024 at 7.30 – 9.00 AM

 Hotel Warwick, Room Mont Blanc, Rue de Lausanne 14, Geneva and online via Zoom

The climate crisis is a health crisis and a threat to child survival. At the 77th World Health Assembly, Members States will consider a resolution on climate change and health which is a building block towards integrated action on climate and health. The resolution will complement the [General Comment 26 of the Committee on the Rights of the Child](#) (GC26) and the [COP28 Declaration on climate and health](#). This side event will demonstrate how to translate these policies into implementation at national and local level with the support of finance, and mainstreaming a child rights and child sensitive approach. The event will be in English only.
