

# THE NEW RESOLUTION ON CLIMATE CHANGE AND HEALTH

## The Incentives for Policy Change - Promoting Action by Leveraging Opportunities

SIDE EVENT - 77TH WORLD HEALTH ASSEMBLY

The 77th World Health Assembly is likely to adopt a new WHA Resolution on Climate Change and Health in May 2024. The Netherlands and Peru, as co-facilitators of the resolution, are organising a side-event to discuss the next steps for successful implementation. Policies for climate change adaptation and mitigation and for health promotion are closely linked. The event will focus on opportunities and incentives for policy change, such as co-benefits, synergies, and integrated financing.

### Objectives:

- Discussing the next steps for the implementation of the WHA resolution.
- Showcasing opportunities to leverage policies for climate change adaptation and mitigation as interventions towards health promotion.
- Addressing climate and health interventions and investments as opportunities, with a focus on win-win strategies and investment cases.

### Agenda:

- Welcome by Moderator Dr. Maria Neira, WHO Director of the Department of Environment, Climate Change and Health
- Co-host speeches by Minister for Medical Care of the Kingdom of the Netherlands and the Permanent Representative of the Mission of Peru
- Interactive roundtable discussion
- Open floor Q&A and pledging round.

**Monday, 27th of May 2024 | 12:30-14:00 CET**

**Jardin des Penthes | Ch. de l'Impératrice 18,  
1292 Pregny-Chambésy**
